NOTE

Parts content does not include assembly, distribution, or other non-parts costs.

FOR THIS VEHICLE

Final assembly point: COVENTRY, ENGLAND
 Country of origin: UNITED KINGDOM
 Engine Parts: UNITED KINGDOM
 Transmission parts: GERMANY

BUMPER QUALITY LABEL

This vehicle has a front bumper that has been tested at an impact speed of 5.0 miles per hour and a rear bumper that has been tested at an impact speed of 5.0 miles per hour and has been designed to minimize damage to the vehicle's body and minimal damage to the bumper and attachment hardware. Minimal damage to bumper means damage that can be repaired with the use of common repair materials and techniques. The stronger the bumper, the less likely the car will require repair after a slow speed collision. (For corners, the impact is 60% of that stated above).

IMPORTANT NOTICE

These impact tests are good faith estimates at which the described extent of bumper damage will not be exceeded based on reasonable engineering judgment and data from testing pursuant to the federal bumper standard. This standard sets damage to the vehicle body or safety systems in 5.0 mph impacts, but sets no limits on damage to bumpers and their associated components and hardware. This vehicle meets the federal bumper standard at 5.0 mph front and rear, and 3.0 mph on the bumper corners.
